

writing the future

of cyber protection

**Brit Cyber Services** 

# our CPR service is for small to medium-sized businesses

## incident response costs

The cover to manage the cost of a security or privacy breach, including:

### Cover for

- Legal fees for breach counsel
- Computer forensic investigation costs
- Public relations expenses
- Crisis management costs

These covers are subject to their own limit and do not reduce the limits of the other parts of your policy.

Limit £5m

### notification services

Enabling you to notify and reassure those affected by a security or privacy breach

### Cover for

- Notification to regulators and individuals
- Credit monitoring expenses
- ID protection and restoration services

These covers are subject to their own limit and do not reduce the limits of the other parts of your policy.

Up to 2.5m notifiable individuals

# insurance protection

The cover to mitigate against the fallout of a breach and minimise its impact on your business

### Cover for

- Business income and digital asset restoration including:
- Outsourced IT service providers
- Any unscheduled or unplanned outage
- Cyber extortion
- Cyber crime
- Privacy and security liability
- Regulatory Investigation under GDPR
- Payment card industry coverage (PCI-DSS)
- Multimedia liability
- Phone phreaking
- Court attendance
- Claims preparation costs

Limit £10m

# our online e-trading portal

A bespoke tool that enables brokers to quote, accept and issue documentation within two minutes

Easy, simple quotations:

- Accelerated submission process using our simple four-step entry that only requires name, address, turnover and record count to generate an initial quote
- Choose from three quote options presented in real time
- Allows brokers to service and cross-sell cyber to existing clients without having to obtain additional information

#### Automated fulfilment:

- Automated processing to reduce administrative burden and drive cost efficiency
- Policy document ready to download immediately after accepting the quote
- Customer policy documents and invoice dispatched to the broker

# our service is delivered through three stages of cyber protection

### Stage 1

### Get ahead

Equipping clients with the tools they need:

- Our Data Safe portal provides advice and the latest information on evolving cyber risks.
- Access to our Knowledge Centre with over 500 compliance and risk management resources.

### Stage 2

### Take control

Ensuring clients are staying up to speed:

- Use the Virtual CISO service to leverage unlimited advice from privacy and data security experts.
- Access to sample plans and procedures to help feel prepared if a cyber event does occur.

### Stage 3

### Move forward

Getting businesses back on the front foot:

- 24/7 breach reporting hotline: our team of experts are on hand 24 hours a day to help clients through a cyber event.
- Our app provides a quick and easy notification process enabling prompt breach reporting to our team of experts.

Three individual limits with the ability to re-deploy the insurance protection limit if required.

# writing the future

Brit is a market-leading global specialty insurer and reinsurer focused on underwriting complex risks. As one of the largest Syndicates, Brit is a significant presence in Lloyd's of London – the world's specialist insurance market.

At Brit, we write risk so our clients can take more of it. Our collaborative teams are committed to innovation, developing client solutions, efficient capital vehicles and a technology-led service – all of which help our clients thrive, stay on the front foot and keep moving forward. What's more, our capabilities are underpinned by robust financials – and our parent company Fairfax Financial Holdings provides us with a strong base for long-term growth.
