PROPERTY FACULTATIVE

SEEING THE DIFFERENCE **MAKES THE DIFFERENCE**

WITH OVER 30 YEARS' EXPERIENCE, OUR US-BASED SPECIALIST PROPERTY UNDERWRITING TEAM FOCUSES ON PRECISE AND TECHNICAL UNDERWRITING.

The account is written from our Chicago office, providing facultative property reinsurance for a range of admitted and E&S ceding companies. Business is received via US reinsurance intermediaries and can be quoted on a primary, excess of loss or quota share basis.

OUR PRODUCT

Our portfolio includes a mix of general commercial, real estate, light industrial, higher-end habitational and municipalities. We can write on an All Risks basis including Flood and Earthquake. We also write on a DIC or standalone peril basis and can insure single locations or large schedules of locations varying in value.

Risk modelling analysis for catastrophe exposures is conducted locally, which enables us to provide a quick response to brokers and clients in this high volume class.

Semi-Automatics and Programs

We have significant expertise in writing and putting together program and semi-automatic placements. We can provide both primary and excess capacity in the Continental US and Hawaii. Our target accounts are established portfolios with a proven loss history, controlled CAT exposure, manageable aggregates and expertise in the class.

Terrorism

Our experienced team writes US-wide standalone terrorism coverage. We have aggregate available in all major cities. Our target clients include commercial, residential, industrial and public non-profit and we model all accounts locally.

OUR CAPACITY

We can write up to \$25m for Property and \$50m for Terrorism.
